

Dear field trip participant,

The program for the field trip can be found on the first page of the workshop program.

Because SKB will show us facilities dealing with nuclear materials we all need to have passed the security check (this is why I asked for date of birth etc some weeks ago). This should now have been taken care of (keep fingers crossed!). We will all have to show passport as id at the gate. Cameras, phones, bags (large or small) etc. are not allowed to bring. Dress according to weather (the field trip is partly outside).
